LUXURY BRASSWARE

PRECISION ENGINEERED

Every Edens product is the result of our desire to combine exceptional quality with distinctive design.

We insist on high grade brass alloys and only the best components go into our designs.

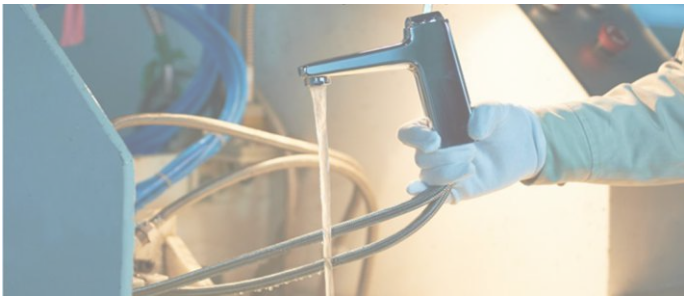

All flat surfaces and edges are hand finished to achieve a mirrored shine.

Using market leading technology in both thermostatic cartridges and ceramic discs we are at the cutting edge of bathroom design.

Coloured brassware in our luxury ranges is produced using electroplating technology. Electroplating offers a premium finish together with a more hardwearing surface compared to the cheaper alternative - powder coating.

All Luxury brassware comes with a ten year manufacturer's guarantee against defects.

BRUSHED BRASS

CLASSIC MATT METAL FINISH

We offer a comprehensive range of brushed brass products:

Basin Mixers & Fillers

Thermostatic Showers

Concealed Showers & Ancillaries

Bathroom Accessories

Basin & Bath Wastes

BRIX BRUSHED BRASS

CLASSIC MATT METAL FINISH

All basin mixers feature Neoperl Adjustable Slim Aerators.

Where indicated these products are fully WRAS approved.

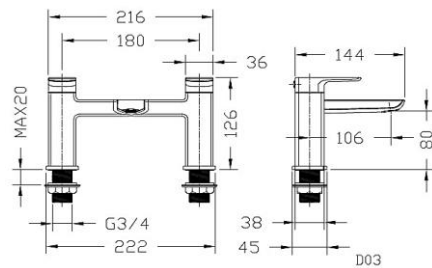

Square brushed brass accessories and showers available to match.

- Controls recessed into handles
- Soft square valve design
- 100% Brass valve
- Cool touch shower valve
- Anti-scald safety stop at 38 C
- Adjustable height riser rail
- Electroplated
- 10 Year guarantee
- Easy clean rubber nozzles on shower head
- 3 Mode handset with select button
- Anti bacterial PVC shower hose

COMPATIBILITY:

Suitable for high pressure systems from 1.0 bar

- Pumped gravity fed systems
- Combination boilers
- Unvented high pressure systems

DIMENSIONS:

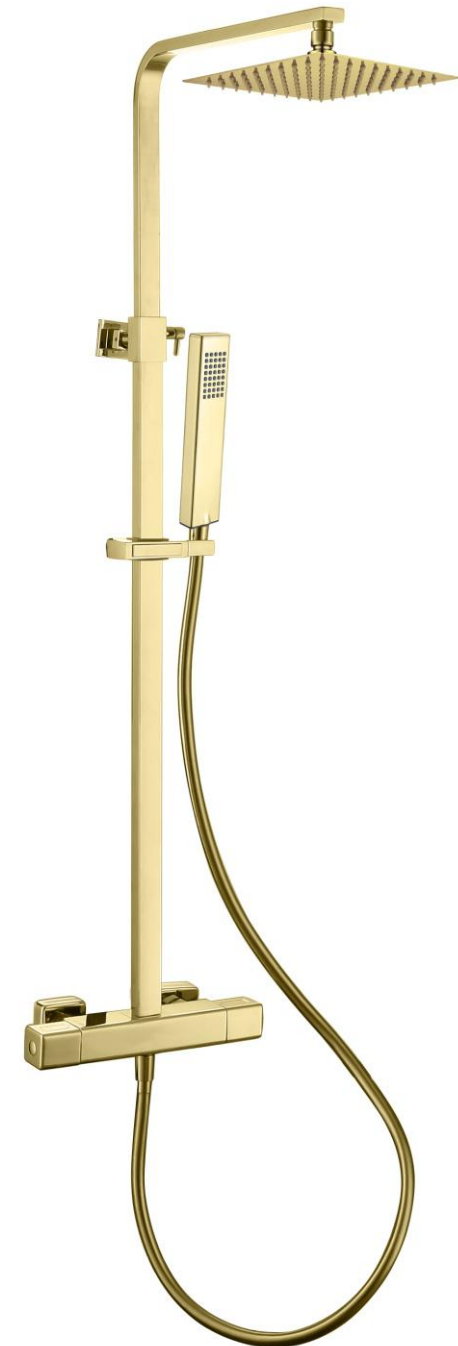

Valve centres 150mm

Valve width 294mm

Shower arm projection 360mm to centre of head

Shower head 250mm x 250mm

Riser rail adjustable from 803mm to 1288mm

CORA BRUSHED BRASS

COLD START TECHNOLOGY

The Cora range of brassware offers modern curved styling.

Cora basin mono mixers feature Cold Start Technology.

When the tap handle is lifted in a central position, the boiler is not activated. Hot water is only turned on as the lever is turned to the left.

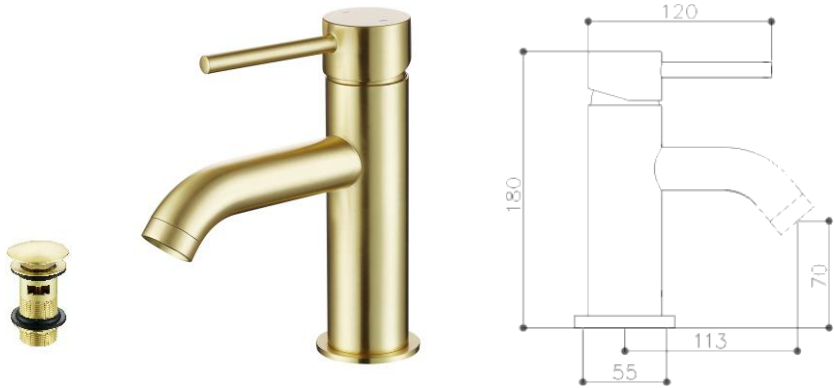

This clever feature prevents the boiler being turned on unnecessarily - saving both energy and money.

All basin mixers feature Neoperl Adjustable Slim Aerators.

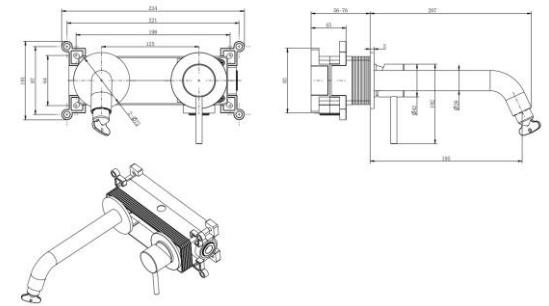

Round brushed brass accessories and showers available to match.

AMOR BRASSWARE

COLD START TECHNOLOGY

The Amor range of brassware offers modern, curved styling.

The Amor basin mono mixer features Cold Start Technology.

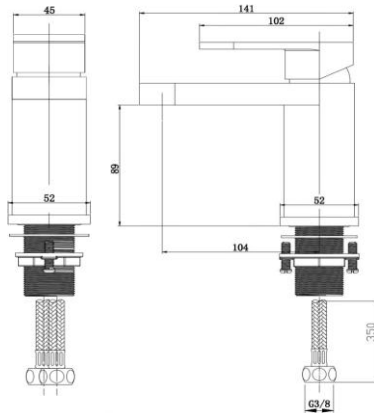

When the tap handle is lifted in a central position, the boiler is not activated. Hot water is only turned on as the lever is turned to the left.

This clever feature prevents the boiler being turned on unnecessarily - saving both energy and money. The basin mixer features Neoperl Adjustable Slim Aerators.

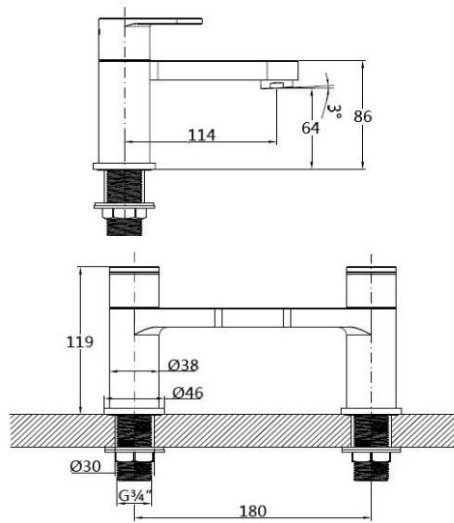

All products are fully WRAS approved.

APEX BRASSWARE

SMOOTH ELEGANCE

The Apex range of brassware offers a combination of modern styling with a rounded base body.

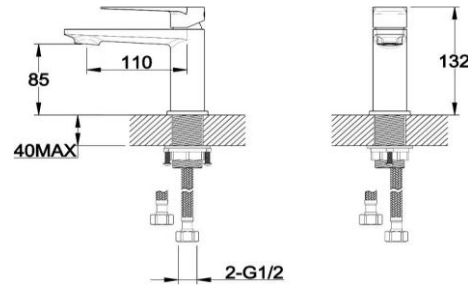

The mixers feature a Swiss Neoperl Adjustable Slim Aerator. This cleverly aerates the stream of water:
- reducing splashing and also water consumption.

The Neoperl aerator also provides an anti-clogging screen:
- filtering out sediment and debris.

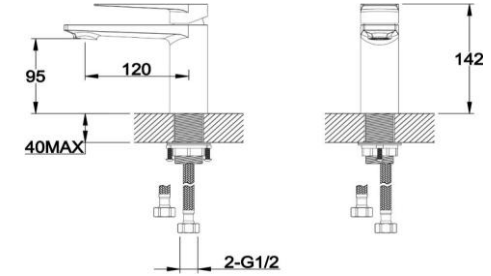

Where indicated these products are fully WRAS approved.

LOFT BRASSWARE

SMOOTH SQUARE

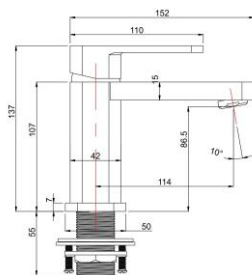

The Loft range of brassware features a soft radius for a refined, rectangular range.

The mixers feature a Swiss Neoperl Adjustable Slim Aerator. This cleverly aerates the stream of water:
- reducing splashing and also water consumption.

The Neoperl aerator also provides an anti-clogging screen:
- filtering out sediment and debris.

EXPOSED SHOWERS

POLISHED CHROME

COOL TOUCH TECHNOLOGY

Showers with this icon offer:

- Cold water flowing throughout the valve body to stop the valve surface heating up - avoiding scalding

SCALE GUARD TECHNOLOGY

Showers with this icon offer:

- Easy maintenance, with no need to remove the thermostat
- Avoid limescale build up and seizing of thermostat
- Avoid problems caused by debris in pipework
- Lengthens the operating life of the thermostat

How to easily clean the shower valve:

- Turn the thermostat to the fully cold position
- This will open a small (2mm) channel in the valve
- Then run the shower handset for 30 seconds

Repeat the same for the hot side (being careful to avoid scalding).

This process will help remove debris and limescale from the hot and cold inlet and outlets.

BRIX ADJUSTABLE DUAL SHOWER

BR012
£460

THERMOSTATIC MIXER SHOWER WITH RISER RAIL

FEATURES:

- Integrated diverter valve
- 100% Brass valve
- Cool touch / Scale guard shower valve
- Anti-scald safety stop at 38 C
- Adjustable height riser rail
- 3 Layer chromium electro plating
- 10 Year guarantee
- Easy clean rubber nozzles on shower head
- 3 Mode handset with select button
- Easy fix connections included
- Anti bacterial PVC shower hose

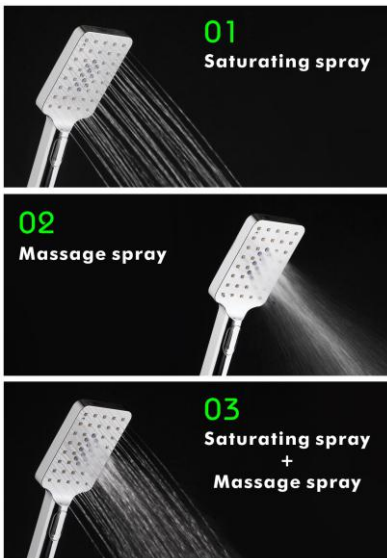

COMPATIBILITY:

- Suitable for high pressure systems from 1.0 bar
- Pumped gravity fed systems
 - Combination boilers
 - Unvented high pressure systems

DIMENSIONS:

Valve width 266mm, Valve centres 150mm
Shower arm projection 360mm to centre of head
Shower head 225mm x 225mm
Riser rail adjustable from 803mm to 1288mm

Fast fit kit included

CORA ADJUSTABLE DUAL SHOWER

CO011
£398

AMOR MODULAR FURNITURE

The Amor furniture collection offers a wide range of 300mm deep white gloss units.

The Amor range uses the same furniture collection as Liena, but incorporates a modern, square design basin.

Additional rectangular bar handles are added to maintain the square look.

All units feature soft closing doors.

All Liena units can be incorporated into the Amor range by adding extra handles to suit.

Units come with a five year guarantee.
